

California Privacy Rights - California Minors

Updated as of August 29, 2016

As stated in our Privacy Policy, our websites, mobile/tablet sites, web pages, social media presence, marketing campaigns, applications, our stores and other AEO controlled digital properties that link to this Policy (collectively, our “Platforms”) are “general audience” websites and not directed toward children.

Certain areas of our Platforms may contain interactive features that allow registered users to post content or information (the “Interactive Services”). If any of our Interactive Services are either: (1) directed toward California residents under the age of eighteen (18); or (2) if AEO has actual knowledge that a registered user of the Interactive Services is a California resident under the age of eighteen (18), AEO will permit such registered user to remove (if applicable) or request that AEO remove or anonymize such content or information as posted by the registered user, to the extent required by California Business and Professions Code § 22581.

If you are under the age of eighteen (18) and would like to request the removal or anonymization of content or information you have posted on or to our Interactive Services, please send your request to privacy@ae.com.
